

As from the publication of the updated Sfil Group Green, Social & Sustainability Bond Framework in November 2024 (as may be amended from time to time) (the "Green, Social & Sustainability Bond Framework"), Sfil Group has incorporated the financing and/or refinancing of French public hospital exposures, as previously eligible under this Social Note Framework, under the "Access to essential services" Eligible Social Loan Category of the Green, Social & Sustainability Bond Framework. Consequently, as from the publication of the Green, Social & Sustainability Bond Framework, any future issuances of social bonds will only be covered by the Green, Social & Sustainability Bond Framework (including social bond issues used to finance and/or refinance, in whole or in part, French public hospital exposures which will no longer be covered by this Social Note Framework), as further detailed under the Green, Social & Sustainability Bond Framework (publicly available on Sfil Group's website: <https://sfil.fr/en/sfil-group-investors/>). Under the Green, Social & Sustainability Bond Framework, Sfil Group can also issue sustainability bond to finance and/or refinance, in whole or in part, French public hospital exposures combined with Eligible Green Loans and potentially other Eligible Social Loans, as defined in the Green, Social & Sustainability Bond Framework.

For the avoidance of doubt, this Social Note Framework will continue to apply until the maturity of the Social Bonds issued under this Social Note Framework, in accordance with the terms and conditions presented therein, and will remain publicly available accordingly, however this Social Note Framework will no longer be updated. Notably, Sfil Group will aim to ensure that the size of the Health Loan Portfolio (as described under this Social Note Framework) will remain at least equal to the total outstanding amount of Social Bonds issued until maturity of all outstanding Social Bonds issued under this Social Note Framework (as further described under the section Management of Proceeds of this Social Note Framework) and will update the reporting of Social Bonds (as further described under section Reporting of this Social Note Framework) accordingly as necessary.

All provisions of this Social Note Framework shall be construed and interpreted in accordance with the preceding paragraphs.

## DISCLAIMER

This document is intended to provide non-exhaustive and general information. This document may contain or incorporate by reference public information not separately reviewed, approved or endorsed by SFIL or CAFFIL and accordingly, no representation, warranty or undertaking, expressed or implied, is made and no responsibility or liability is accepted by SFIL or CAFFIL as to the fairness, accuracy, reasonableness or completeness of such information.

This document may contain statements about future events and expectations that are forward-looking statements. None of the future projections, expectations, estimates or prospects in this document should be taken as forecasts or promises nor should they be taken as implying any indication, assurance or guarantee that the assumptions on which such future projections, expectations, estimates or prospects have been prepared are correct or exhaustive or, in the case of the assumptions, fully stated in the document. Neither SFIL nor CAFFIL has, and undertakes no obligation to update, modify or amend this document or the statements contained herein to reflect actual changes in assumptions or changes in factors affecting these statements or to otherwise notify any addressee if any information, opinion, projection, forecast or estimate set forth herein changes or subsequently becomes inaccurate.

This document is not intended to be and should not be construed as providing legal or financial advice. It does not constitute an offer or invitation to sell or any solicitation of any offer to subscribe for or purchase or a recommendation regarding any securities of SFIL or CAFFIL, and nothing contained herein shall form the basis of any contract or commitment whatsoever and it has not been approved by any security regulatory authority.

This material is not intended for distribution to, or use by, any person or entity in any jurisdiction or country where such distribution or use would be contrary to law or regulation. Persons who might come into possession of it must inquire as to the existence of such restrictions and comply with them.

The addressee is solely liable for any use of the information contained herein and neither SFIL nor CAFFIL shall be held responsible for any damages, direct, indirect or otherwise, arising from the use of this document by the addressee.

The Final Terms relating to any issue of Social *Obligations Foncières* issued by CAFFIL or Social Notes issued by SFIL (the "Social Bonds") may provide that it will be SFIL's or CAFFIL's intention to apply the proceeds of the subscription of the Social Bonds to the Health Loan Portfolio. For the avoidance of doubt, references to Social Bonds herein should be construed as any securities to be issued by SFIL or CAFFIL in line and in accordance with this document (the "Social Note Framework").

Prospective investors should have regard to the information set out in the relevant Final Terms regarding such use of proceeds and must determine for themselves the relevance of such information for the purpose of any investment in such Social Bonds together with any other investigation such investor deems necessary. In particular, no assurance is given by SFIL, CAFFIL or the relevant dealers that the use of such proceeds for any asset will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, whether by any present or future applicable law or regulations or by SFIL or CAFFIL's own by-laws or other governing rules or investment portfolio mandates, in particular with regard to any direct or indirect environmental, sustainability or social impact of any projects or uses related to any asset. Furthermore, it should be noted that there is currently no clearly defined definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a "green", "sustainable" or "social" or an equivalently-labelled asset. In addition, the requirements of any such label may evolve from time to time, accordingly, no assurance is or can be given to investors that any asset or use(s) the subject of, or related to, any asset will meet any or all investor expectations regarding such "green", "social" or "sustainable" or other equivalently-labelled performance objectives.

No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion or certification of any third party (whether or not solicited by SFIL or CAFFIL) which may be made available in connection with the issue of any Social Bonds and in particular with any asset, to fulfil any environmental, social, sustainable and/or other criteria. Currently, the providers of such opinions and certifications are not subject to any specific regulatory or other regime or oversight. Any such opinion or certification is not, nor should be deemed to be, a recommendation by SFIL or CAFFIL or any other person to buy, sell or hold any such Social Bonds.

While it is the intention of SFIL or CAFFIL to apply the proceeds of any Social Bonds so specified for the relevant asset, in, or substantially in, the manner described in the Final Terms, there can be no assurance that the relevant asset or use(s) the subject of, or related to, any asset, will be capable of being implemented in or substantially in such manner and/or accordance with any timing schedule and that accordingly such proceeds will be totally or partially disbursed for such asset. Nor can there be any assurance that such asset will be completed within any specified period or at all or with the results or outcome as originally expected or anticipated by SFIL or CAFFIL. Any such event or failure by SFIL or CAFFIL will not constitute an event of default under the Social Bonds.

Any such event or failure to apply the proceeds of any issue of Social Bonds for any asset as aforesaid and/or withdrawal of any such opinion or certification or any such opinion or certification attesting that SFIL or CAFFIL is not complying in whole or in part with any matters for which such opinion or certification is opining or certifying on may have a material adverse effect on the value and marketability of such Social Bonds and also potentially the value of any other Social Bonds and/or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose. For the avoidance of doubt, it is however specified that payments of principal and interest (as the case may be) on the Social Bonds shall not depend on the performance of the relevant asset.

## 1. Introduction to SFIL Group

SFIL is the French local government and export financing agency. SFIL was created on February 1<sup>st</sup>, 2013 with the public policy mission to provide long dated funding for French local public sector investments. SFIL has the status of public development bank under European Union regulations. Since May 2015, SFIL also acts as a refinancing platform for large export contracts guaranteed by the French Republic.

SFIL Group raises funding on capital markets via regular issuance by its subsidiary Caisse Française de Financement Local (CAFFIL) and via direct issuance by SFIL:

- Covered bonds (*obligations foncières*) issued by CAFFIL represent the main source of funding for SFIL group. Exposures to the French Public Sector are held on the balance sheet of CAFFIL and investors have a direct claim on these assets in case of insolvency of the issuer. CAFFIL has the legal status of *société de crédit foncier* governed by Articles L.515-13 *et seq.* of the Monetary and Financial Code.
- Since 2016, SFIL finances its activity via regular issuance of benchmark bonds in the agency market segment. In addition, since 2015, SFIL's short dated funding is raised via a French law domestic commercial paper program.

A detailed description of each issuer is provided respectively in the EMTN Base Prospectus of SFIL and its supplements and in the EMTN Base Prospectus of CAFFIL and its supplements.

## 2. Rationale to issue Social Bonds

By the nature of its business, which includes providing long term funding for the French local public sector, SFIL has a social responsibility and contributes to the achievement of the United Nations Sustainable Development Goals (SDG), notably:

- SDG 3 - Ensure healthy lives and promote wellbeing for all at all ages,
- SDG 4 - Ensure inclusive and quality education for all and promote lifelong learning,
- SDG 5 - Gender Equality,
- SDG 6 - Clean Water and Sanitation,
- SDG 7 - Affordable and clean energy,
- SDG 9 - Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation,
- SDG 11 - Make cities and human settlements inclusive, safe, resilient and sustainable,
- SDG 12 Responsible Consumption and Production, and
- SDG 13 - Climate Action

SFIL Group is further developing its funding strategy to better reflects this ambition and social responsibility. To that end, Social Bonds are to become a substantial part of its toolbox for funding sustainable investments.

SFIL Group is convinced that Social Bonds are an effective tool to channel investments towards assets that have social benefits and to provide transparency to investors.

With the hope to broaden its investor base by attracting investors that seek to focus their investments on socially friendly assets, SFIL Group has designed this Social Note Framework in accordance with the social bond principles published by the International Capital Market Association (ICMA), as amended from time to time (the "**Social Bond Principles**"). This Social Note Framework therefore aligns with market best practices.

## 3. SFIL Group Social Note Framework

Social Bonds, as defined in this Social Note Framework, may be covered bonds (*obligations foncières*) issued by CAFFIL or bonds issued by SFIL:

- Social covered bonds (*obligations foncières*) issued by CAFFIL will be used to finance and/or refinance the Eligible Health Loan Portfolio ("Health Loan Portfolio") as defined in 3.1. All exposures to the public healthcare sector are held on the balance sheet of CAFFIL,

- Social bonds issued by SFIL are direct, unconditional, unsecured and unsubordinated obligations of SFIL. Net proceeds of Social Bonds issued by SFIL will be used to finance or refinance, in whole or in part, the Eligible Health Loan Portfolio as defined in 3.1. by providing funding to CAFFIL.

In accordance with the Social Bond Principles, SFIL's Social Note Framework contains the following key pillars:

- Use of proceeds,
- Process for Project Evaluation and Selection,
- Management of Proceeds, and
- Reporting

### 3.1. Use of proceeds

An amount equivalent to the net proceeds of the Social Bond issues will be used to finance and/or refinance, in whole or in part, the Health Loan Portfolio as defined below.

The "Health Loan Portfolio" consists of all existing and future public hospital exposures held by SFIL Group and acquired since 2013, in accordance with the French public hospital policy as defined by the French *Code de la Santé Publique* and contributing to the public hospital sector responsibilities, including:

- Provision of public health services for the whole population, regardless of the income, social or financial status, at any time, and for all medical and surgical specialties, all diagnostic and therapeutic possibilities, including rare diseases or extremely expensive, complex and long-term treatments;
- Research to continually improve care and develop new treatments;
- Training of doctors, midwives, pharmacists, dentists, healthcare executives, nurses, etc.

French law specifically requires public hospitals to provide support to vulnerable populations:

- Public hospitals are a key tool of the French health policy. One key objective of this policy is to reduce social, gender and regional inequalities (article L.1411-1 of the *Code de la Santé Publique*),
- Public hospitals have the mission to make necessary medical treatment available to each and every person, and to provide a continuous access to medical treatment (article L.1110-1 of the *Code de la Santé Publique*). Any kind of discrimination for the access to medical treatment is explicitly prohibited (article L.1110- 3 of the *Code de la Santé Publique*),
- Provision of medico-social services targeting people in a difficult situation (for example the elderly, poor or homeless people). In the absence of health insurance cover, these services are provided free of charge: the French universal health insurance system (*couverture médicale universelle* (CMU)) ensures access to medical treatment for people in a difficult situation as no advances in cash are required for treatment by public hospitals. In addition, public hospitals provide administrative help and assistance to ensure full access to public services (article L.6111-1-1 of the *Code de la Santé Publique*),
- Provision of healthcare services across all territories in France, including the most isolated territories (article L.6112-2 of the *Code de la Santé Publique*).

### 3.2. Process for Project Evaluation and Selection

In France, resources allocated to public hospitals are defined by the Regional Healthcare Agencies (*Agences Régionales de Santé* (ARS)) in the annual Regional Healthcare Project (*Projet Régional de Santé* (PRS)) based on a concertation with the different stakeholders. The role of Regional Healthcare Agencies is defined in article L.1431-2 of the *Code de la Santé Publique*. In practice, Regional Healthcare Agencies are responsible for coordinating the different healthcare activities over the territory and allocating the related budget to the different public healthcare infrastructures. They are also in charge of all the health monitoring and the prevention of environmental and social risks related to safety issues

among the region and within those infrastructures. SFIL's public mission consists in refinancing those exposures to public hospitals after the financing decision was taken at the Regional Healthcare Agencies' level.

All public hospital exposures financed by SFIL go through the same process of evaluation prior to approval.

Before the French public hospital exposure is approved for transfer to SFIL, the Credit Risk department performs a two-step credit analysis:

1. The financial analysis of the public hospital
2. The extra-financial analysis of the public hospital.

The extra-financial analysis is performed by the Credit Risk department to assess the Healthcare Added Value ("HAV") of public hospitals, estimated as the quality of the medical coverage provided to all populations, in all areas in France.

For that purpose, the Credit Risk department has developed an internal proprietary scoring methodology. This methodology allows to calculate a Healthcare Added Value of each public hospital in the following medical specialties: Medicine, Surgery, Obstetrics ("MCO"), Psychiatrics, Follow-up and Rehabilitation Care and Care for elderly people. The objective is to for each of these medical specialties the social importance of the public hospital in its geographical area. To that extent, different indicators are taken into account within the assessment depending on the specialty, as shown in the table below:

Main Specialties	<i>Médecine Chirurgie Obstétrique (MCO)</i> <i>Medicine, Surgery, Obstetrics</i>	<i>Psychiatrie (PSY)</i> <i>Psychiatry</i>
Social objective 1	For these two main medical specialties, the HAV of a public hospital depends on its capacity to deliver a wide and comprehensive medical coverage to a large population. The relative size of the hospital in its area and its wide-range of services are therefore key to determine its HAV. The best existing indicator to capture these aspects is therefore the market share of the hospital in its geographic area, based on the number of stays, compared to other medical institutions (e.g., private clinics)	
Social indicator 1 Used for HAV Scoring	Hospitals market share in its geographical area (department) Number of MCO stays in the public hospital divided by the total number of MCO stays in the department	Hospitals market share in its geographical area (department) Number of PSY stays in the public hospital divided by the total number of PSY stays in the department
Social objective 2	In addition to the size / comprehensiveness of the hospital, captured by the market share, the HAV of a MCO hospital services increases as it is located in geographic areas with increased population growth	For PSY, in addition to the size / comprehensiveness of the hospital, the HAV needs to capture the necessity of PSY services to be well distributed geographically, as such specialty is needed everywhere in France and as it is insufficiently developed in France
Social indicator 2 Used for HAV Scoring	Demographic growth rate in the department	Equipment rate for PSY services in the department
Additional Specialties	<i>Soin de Suite et Réadaptation (SSR) -</i> <i>Follow up and rehabilitation care</i>	<i>Prise en charge des Personnes</i> <i>Agées (PPA) - Care for elderly</i> <i>people</i>

Social objective	The HAV of SSR in a public hospital is related to the capacity of such service to host people coming out of other services ( <i>i.e.</i> mainly from MCO & PSY). The level of activity in this medical specialty is therefore the best proxy of its HAV.	PPA is a side activity to MCO, PSY and SSR. The most important social feature is that this service must be available, as much as possible, everywhere in France.
Social indicator used for the Scoring	Occupation rate of this service	Department equipment rate for PPA services

Output = [0-100] Healthcare Added Value Scoring for each Hospital  
Based on a weighted average of the criteria mentioned above

The HAV of any hospital is a key decision factor before SFIL finances any French Public Hospital; however there is no minimum threshold. Overall, volumes of credit made available will be higher for hospitals with high HAV scores.

Important lending decisions will be taken by the Credit Risk Committee. All credit risk procedures and methodologies relating to public hospitals are reviewed by the Credit Risk Committee. The CEO, CFO and CRO are all represented on the Credit Risk Committee.

### 3.3. Management of Proceeds

SFIL Group has set up internal systems to track the use of proceeds of its Social Bonds and has established a register to monitor the Health Loan Portfolio. SFIL Group will manage its Social Bonds with a portfolio approach, *i.e.* aim to ensure that the total outstanding amount of Social Bonds is always lower than the size of the Health Loan Portfolio.

Pending the full allocation of the net proceeds to the Health Loan Portfolio, SFIL Group will keep record of the remaining balance of unallocated Social Bonds proceeds and invest such unallocated amount in money market products as per SFIL's treasury policy.

The auditors will be requested to verify annually the allocation of the Social Bonds proceeds as documented in section 4.2.

### 3.4. Reporting

#### 3.4.1. Allocation reporting

Allocation reporting will be available to investors within one year from the date of each Social Bonds issuance and annually thereafter until the net proceeds have been fully allocated and on a timely basis in the case of material developments.

The report will provide:

- the total amount of proceeds allocated to the Health Loan Portfolio;
- the number of exposures in the Health Loan Portfolio; and
- the average lifetime of the exposures

#### 3.4.2. Impact reporting

Where possible, SFIL intends, on a best effort basis, to report annually and until full allocation on social impact indicators of the Health Loan Portfolio. However, as the large number of underlying exposures limits the amount of detail that can be made available, information will be presented in generic terms or on an aggregated portfolio basis (e.g. percentage allocated on a regional basis).

For illustration, SFIL will consider using the following indicative reporting indicators:

- Number of places and beds<sup>1</sup>

<sup>1</sup> The number of places and beds measure the capacity of the hospitals. "Places" are used for partial hospitalization (medical treatments of less than 1 day) and "beds" are used for complete hospitalization (medical treatments of

- Number of hospital stays<sup>2</sup> (stays of one or several days)

Additionally, when appropriate and subject to confidentiality obligations, SFIL may provide examples of French public hospitals investments which benefited from the financing of the Social Bond.

Both the allocation report and impact report will be made available on SFIL's website.

In case several Social Bonds are issued within the year, there will be a single annual reporting for all Social Bond issuances under the Social Note Framework. The annual reporting is intended to follow the guidelines of the Social Bond Principles.

## 4. External review

### 4.1. Second Party Opinion

Sustainalytics has been selected to assess the sustainability, transparency and governance of SFIL Group's Social Note Framework and its compliance with the Social Bond Principles. The results will be documented in Sustainalytics' Second Party Opinion, which will be available on SFIL Group's website.

### 4.2. External Verification

The allocation of the Social Bond net proceeds to the Health Loan Portfolio will be verified by the SFIL Group's auditors on an annual basis, starting within one year after issuance and until full allocation of the Social Bond proceeds.

## 5. Amendments to this Social Note Framework

Standards and best market practices in the social bond market may be updated from time to time. SFIL Group will monitor these developments closely and intends to review this Social Note Framework on a regular basis, which may result in this Social Note Framework being updated and amended.

Any updated or amended version of this Social Note Framework will be published on SFIL's website (section investor relation) and will replace this Social Note Framework. Any Social Bonds still outstanding or issued after the update or amendment of this Social Note Framework will be subject to the updated and amended Social Note Framework.

---

more than 1 day)

<sup>2</sup> The number of stays measures the number of visits in the hospital, independently from the visit duration (within one day or over several days)
