## 101 Départements

- Construction and upkeep of secondary schools ("Collèges")
- Departmental road network

French local public sector lending in partnership with La Banque Postale

Lending to the local public sector is provided under a strict framework under European Commission supervision and **scope of lending is limited to French local authorities and public hospitals**.

Loans are originated by La Banque Postale and CDC (Banque des Territoires), **transferred via true sale to the balance sheet of Caffil** and refinanced via bond issuance on international capital markets.

Loans are priced at market levels, **and with a independant credit approval process** at the level of Sfil Group.

## Public ownership and public policy missions

Market leader in local public sector lending

**Leading lender to the French local government sector** with more than **20% of outstanding loans held by Sfil Group**.

Since 2013, **Sfil has provided close to EUR 55 billion in loans to the French local public sector**.

In total, Sfil provides financing **around 11 000 French local authorities and to over 800 public healthcare institutions**.

Lending to the French local public sector in 2024 reached a **record level of EUR 6.3 billion (+46% vs 2023)** driven by local authorities with **EUR 5.8 billion** of loans granted **(+45% vs 2023)**.

Use-of-proceeds loans granted to local authorities **rose by 31% compared to 2023**. This **significant increase for green loans** (EUR 1.2 billion, +22% from 2023) **and social loans** (EUR 869 million, +44% from 2023) confirms the strong interest for these financing instruments.

In December 2024, European Commission authorized the **extension of our activity** to lend to **other French public entities** (i.e. public organisations and public entities *sui generis*) **or to the exposures guaranteed by them**.
