1. DESCRIPTION OF THE ISSUANCE PROGRAMME

Articles D. 213-9, 1° and D 213-11 of the French monetary and financial code and Article 6 of the Order of 30 May 2016 and subsequent amendments

1.1	Name of the programme	SFIL NEU CP (ID Programme 1842)
1.2	Type of programme	NEU CP
1.3	Name of the issuer	SFIL
1.4	Type of issuer	Monetary financial Institution // Credit institution, investment firm and CDC under the conditions set out in art. L 213-3.1 of the French Monetary and Financial Code
1.5	Purpose of the programme	In order to meet the general corporate purposes of Sfil (the "Issuer") and its subsidiary, the Issuer will issue from time to time NEU CP.
1.6	Programme size (maximum outstanding amount)	3 000 000 000 EUR three billion EUR
1.7	Form of the notes	The NEU CP are Negotiable Debt Securities issued in bearer form and recorded in the books of authorised intermediaries (book entry system) in accordance with French laws and regulations.
1.8	Yield basis	The remuneration is unrestricted. Benchmark indice(s) : The variable/adjustable rates are indexed to the usual rates of the money markets. Compensation rules(s) : The remuneration of the NEU CP is unrestricted. However, if the Issuer issues NEU CP with remuneration linked to an index, or an index clause, the Issuer shall only issue NEU CP with remuneration linked to usual money market indexes, such as but not restricted to: €STR, SOFR or SONIA. The NEU CP may be issued with a coupon calculated by reference to a money market rate, such as but without limitation: €STR, SOFR or SONIA or any successor or substitute thereof. The Issuer, shall use reasonable endeavours to appoint an Independent Adviser, as soon as reasonably practicable, to determine the use of any alternative rate, including any successor or substitute reference rate endorsed by competent authorities or central banks (if available) in the event of (i) the initially provided reference rate ceasing to exist or be published, (ii) the later of (a) the making of a public statement by the administrator of the initially provided reference rate that it will, on or before a specified date, cease publishing the initially provided reference rate permanently or indefinitely (in circumstances where no successor administrator has been appointed that will continue publication of the initially provided reference rate) and (b) the date falling six months prior to the date specified in the public statement referred to in (ii)(a), (iii) the making of a public statement by the supervisor of the administrator of the initially provided reference rate that such rate has been permanently or indefinitely discontinued, (iv) the later of (a) the making of a public statement by the supervisor of the administrator of the initially provided reference rate that such rate will, on or before a specified date, be permanently or indefinitely discontinued and (b) the date falling six months prior to the date specified in the public statement referred to in (iv)(a), (v) the making of a public statement by the supervisor of the administrator of the initially provided reference rate that means the initially provided reference rate

will be prohibited from being used or that its use will be subject to restrictions or adverse consequences, in each case within the following six months, (vi) it has or will prior to the next interest determination date, become unlawful for the Issuer, the party responsible for determining the rate of interest, or the Issuing and Paying Agent to calculate any payments due to be made to any holder of the NEU CP using the initially provided reference rate (including, without limitation, under Regulation (EU) 2016/1011, if applicable) or (vii) that a decision to withdraw the authorisation or registration pursuant to article 35 of Regulation (EU) 2016/1011 of any benchmark administrator previously authorised to publish such initially provided reference rate has been adopted.

If the Independent Adviser has determined an alternative rate, successor or substitute reference rate in accordance with the foregoing, (i) the Independent Adviser will also determine concomitant changes (if any) to the adjustment spread and the terms and conditions of the NEU CP (including the business day convention, the definition of business day, the interest determination date, the day count fraction) and any method for obtaining the alternative rate, successor or substitute reference rate, and such other changes or adjustments necessary to make such alternative rate, successor or substitute reference rate as comparable as possible to the initially provided reference rate, in each case in a manner that is consistent with industry-accepted practices for such alternative rate, successor or substitute reference rate and such guidance promulgated by associations involved in the establishment of market standards and/or protocols in the international financial and/or debt capital markets as the Independent Adviser may consider relevant for such alternative rate, successor or substitute reference rate, and (ii) the Issuer shall, subject to giving notice thereof, without any requirement for the consent or approval of holders of the NEU CP, vary the terms and conditions of the NEU CP to give effect to such amendments with effect from the date specified in such notice.

For this purpose, "Independent Adviser" means an independent financial institution of international repute or an independent adviser of recognised standing with appropriate expertise appointed by the Issuer at its own expense. At their maturity date, the principal of the NEU CP shall always equal par.

The remuneration of the NEU CP may be negative depending on the fixed rates or the trend of the usual money market indexes applicable to the calculation of the remuneration. In this case, the amounts actually redeemed to the holders of the NEU CP's after set-off with the negative interests flows may be below par. The conditions of remuneration of such NEU CP will be set up when the said NEU CP will be initially issued. In the case of an issue of NEU CP embedding an option of early redemption or repurchase, as mentioned in paragraph 1.10 below, the conditions of remuneration of such NEU CP will be set out when the said NEU CP will be initially issued and shall not be further modified, including when such an embedded option of early redemption or repurchase will be exercised.

1.9	Currencies of issue	Euro or any other currency authorized by applicable laws and regulations in force in France at the time of the issue
1.10	Maturity	

		The term (maturity date) of the NEU CP shall be determined in accordance with laws and regulations applicable in France, which imply that, at the date hereof, the term of the NEU CP shall not be longer than one year (365 days or 366 days in a leap year). The NEU CP may be redeemed before maturity in accordance with the laws and regulations applicable in France. The NEU CP issued under the Programme may also carry one or more embedded option of repurchase before the term (hold by either the Issuer or the holder, or linked to one or several events not related to either the Issuer or the holder). An option of early redemption or repurchase of the NEU CP, if any, shall be explicitly specified in the confirmation form of any related issuance of NEU CP. In any case, the overall maturity of any NEU CP embedded with one or several of such clauses, shall always - all possibilities of early redemption or repurchase included - conforms to laws and regulations in force in France at the time of the issue.
1.11	Minimum issuance amount	200 000 EUR or any other amount above the stated value (or equivalent amount in the relevant foreign currency)
1.12	Minimum denomination of the notes	By virtue of regulation (Article D 213-11 of the French monetary and financial code), the legal minimum face value of the commercial paper within the framework of this program is 200 000 euros or the equivalent in the currencies selected at the time of issuance
1.13	Status of the notes	Senior Unsecured Information about the status of the notes : The NEU CP will constitute direct, unsecured and unsubordinated obligations of the Issuer ranking at least pari passu with other present and future direct, unsecured and unsubordinated obligations of the Issuer.
1.14	Governing law that applies to the programme	The NEU CP under the Programme shall be governed by and construed in accordance with French law. All potential disputes related to the issuance of the NEU CP shall be governed by and construed in accordance with French law.
1.15	Listing of the notes/Admission to trading on a regulated market	Yes. All, or part only, of the NEU CP issued under the Programme may be admitted to trading on Euronext Paris in accordance with <i>Règlement</i> (UE) 2017/1129 of the European Parliament and of the Council dated 14 June 2017. Therefore, the Company may, in compliance with the applicable banking and financial regulations: (a) obtain any adequate resources, notably (i) issue any transferable securities, any negotiable debt securities, or other financial instruments in France or abroad and (ii) more generally, use any debt or assets- collection mechanism with or without ownership transfer; (b) acquire and hold shares in existing or newly created

		companies contributing to the realization of its operations and sell these shares; and (c) in more general terms, directly or indirectly carry out, for itself and on behalf of third parties or in cooperation, all financial, commercial, industrial, personal property or real estate transactions with a view to conducting the aforementioned activities.
2.7	Brief description of current activities	General business environment: Sfil finances the investments of French local authorities and public hospitals through two partnerships with La Banque Postale and Banque des Territoires, signed in 2013 and 2022 respectively, and which are subject to assignment agreements. These schemes share the following characteristics: • the partners originate loans to French local authorities and public hospitals, then sell them to Caffil, the Group's société de crédit foncier; • the loan offer is intended for all types of local authorities throughout France, from the smallest municipalities to the largest inter-municipal, departmental or regional structures; • deliberately simply designed, these amortizing loans, for a minimum amount of EUR 40,000, are exclusively denominated in euros and bear a fixed interest rate or a single-indexed (Euribor + margin) or double-phased (fixed rate then variable rate) interest rate; • the Sfil Group finances acquired loans by issuing obligations foncières (covered bonds) and EMTNs. When these are used to proceed loans (i.e. green or social loans to local authorities or loans to public hospitals), they are financed by green, social or sustainable bonds (see 1.3 "Financing of Sfil"). These partnerships enable the Group to maintain control of its credit risk: • before origination, the two entities involved carry out an initial analysis of the counterparty. The loans that do not meet the credit and eligibility criteria set by the Sfil Group cannot be transferred to its balance sheet. Eligibility criteria are strictly governed by internal management policies; • in the case of the partnership with La Banque Postale, before each acquisition, a new analysis is carried out. Any loan that no longer meets the criteria may be temporarily or permanently refused before the transfer. The French Republic has entrusted Sfil and its subsidiary Caffil with a second mission: refinancing of large export contracts. Its objective is to improve the competitiveness of financing associated with French exports, according to a public refinancing scheme that also exists in several OECD countries, and this by leveraging on the excellent financing capacities of the Group on the international financial markets. the Sfil Group, via its subsidiary Caffil, issues obligations foncières (covered bonds) on financial markets in the form of benchmark public issues but also in the form of private placements, particularly in the registered covered bonds format, adapted to its large

		investor base. These instruments are characterized by the legal privilege, which, as a priority, allocates the sums from the cover pool of Caffil to pay their interest and reimbursements. In addition to and in order notably to diversify the Group's sources of financing and investor base, Sfil itself regularly issues medium-term debt securities in the form of bonds issues in euros and US dollars and short-term debt securities via its specific issuance program for debt securities of less than one year (NeuCP issuance program). The consolidated net income, prepared in accordance with IFRS, was EUR +69 million at December 31, 2024, a 22% increase from December 31, 2023 (EUR +56 million). This change was mainly driven by recurring income rather than the change in non-recurring items, which remained relatively stable. Non-recurring items represented a charge of EUR 9 million in 2023 compared EUR 6 million in 2024. In 2024, non-recurring items were more specifically related to (i) the volatility of the valuation of the derivative portfolio for EUR +5 million, (ii) the impacts of the valuation of non-SPPI loans in application of IFRS 9 for EUR -13 million. In 2023, the consolidated net income of Sfil, prepared in accordance with IFRS, was EUR +56 million at December 31, 2023, a 34% decrease from December 31, 2022 (EUR +86 million). This change was entirely due to non-recurring items which represented an income of EUR 23 million in 2022 compared to an expense of EUR 9 million in 2023. Non-recurring items are more specifically related to (i) the volatility of the valuation of the derivative portfolio for EUR 4 million, (ii) the impacts of the valuation of non-SPPI loans in application of IFRS 9 for EUR -24 million and (iii) an exceptional tax income of EUR 6 million in 2023 (see section 2.7.3 "Management of the main risks" and more specifically the sub-section dealing with legal and tax risk of the 2023 Financial report of Sfil). 2.18	Additional information on the issuer	2024 was a year of uncertainty, both from the instability caused by the elections in a number of countries and the economic impact resulting from these new political configurations. The war in Ukraine and the conflict in the Middle East continued marking the geopolitical context and to fuel this global uncertainty. After a 2023 year characterized by the increase in its deposit rates, the European Central Bank (ECB) reduced its key rates by 100 basis points in 2024. These rate cuts were to be considered in the light of inflation returning to a level close to the ECB's target: the annual rate of inflation thus reached 2.4% at end 2024 in the eurozone, compared to 2.9% at the end of 2023. The US Federal Reserve reduced its main key rate by the same level over the year to land in the 4.25% - 4.5% range. The inflation rate in the United States reached 2.9% for 2024, close to the level of the eurozone. In this context, the activity of European economies remained slow with 0.8% growth in 2024, while the US economy remained solid, with 2.8% growth. Spain overtook the economic engines of the eurozone, Germany and France. This heterogeneity within the Economic and Monetary Union came notably from the deferred impact of the inflation of energy and raw materials in recent years as well as the arrival of non-European competitors in the historical markets of the eurozone countries. In 2024, lending to French local authorities and public hospitals, through the partners La Banque Postale and Banque des Territoires, increased by 46% to EUR 6.3 billion. After the slowdown observed in the implementation of the Ségur Plan in 2023, the health sector saw a gradual recovery in investments. The volume of loans granted to public hospitals reached EUR 518 million, compared to EUR 322 million in 2023. The payment of subsidies under the Ségur Plan enabled them to initiate, to a certain extent, investment projects that had been previously delayed. However, due to the increase in their costs (inflation, raw materials), some of these projects had to be redirected towards the renovation of buildings rather than construction. In this context, Sfil continued providing financing to public hospitals, based on a long-term assessment of their financial situation and of the positioning of their healthcare offer (healthcare added value). In 2024, Sfil continued its institutional actions to promote its role in financing the local public sector and its thematic loan offer to its borrowers: • an information session, co-organized in January I4CE and La Banque Postale, for local decision-makers on the challenges of the regionalization of the environmental transition; • the completion of a new study by I4CE and the research department of La Banque Postale continuing, in line with their last three publications, the discussion on the necessary doubling of the "climate investments" that local authorities will have to make to achieve France's climate objectives (see above). This new publication aims to identify the financing levers to be activated in order to achieve this;

the participation in several local public sector events: in particular the Assises de l'Afïgese in September, the Financing of the environmental transition day organized by the ANAP (National Agency for Health and Medico-Social Performance) and the Convention nationale des intercommunalit s in October and finally, the Mayors and Local Authorities' exhibition in November 2024 during which a conference was organized on the presentation of the new l4CE study mentioned above;

- a second satisfaction survey of local public sector borrowers, which highlighted the strengthening of the relationship with its customers as well as its progress in terms of both reputation and preference compared to its competitors. Potential areas for improvement have also been identified, that Sfil will work on during 2025.

These trends reflected the significant weight of thematic loans (green and social loans to local authorities, loans to public hospitals) in the activity. They represented 40% of the production of loans to the local public sector in 2024 (compared to 43% in 2023).

- the continuation of communication and awareness-raising actions for local authorities by sending information letters or dedicated meetings on certain topics such as climate and environmental ratings.

Alongside these actions, Sfil continued rolling out its DIGISfil digital platform and supporting its borrowers in the digitalization of exchanges (nearly 3,200 borrowers covering 75% of outstanding loans compared to 69% in 2023).

After a record financial year in 2023, the growth of the global export credit market stalled in 2024, with a decline in terms of both volume and number of transactions (respectively -27% and -14% compared to 2023). However, this correction should be put into perspective: the long-term trend in export credit remained firmly oriented upwards, with 2024 reaching a level well above 2021 or 2022.

As in 2023, the transport sector consolidated its leading position in export credit worldwide in 2024 with 25% of volume and 25% of transactions (compared to 18% and 23% respectively in 2023). In absolute value, the amounts for this sector were almost identical to those for 2023. The renewable energies sector paradoxically decreased by 36% in volume compared to 2023 but at the same time increased by 16% increase in terms of transactions. This sector represented 11% of total export credit transactions in 2024 (compared to 12% in 2023). The infrastructure sector recorded significant growth in both volume (+11% compared to 2023) and the number of transactions (+23% compared to 2023). It represented 11% of total export credit transactions in 2024 (compared to 7% in 2023). Lastly, due to the gradual slowdown in support from export credit agencies, the oil and gas sector declined significantly (-56% in volume and -36% in number of transactions); it represented only 6% of the total (compared to 10% in 2023).

Smaller transactions also illustrated the market correction experienced in 2024: the average transaction amount went from USD 320 million in 2023 to USD 271 million in 2024 while transactions above USD 550 million only represented 64% of the total volume compared to 73% in 2023.

In this context, after a record year in 2023, the refinancing of export credits remained at a high level in 2024 for the Sfil Group: five contracts were signed for EUR 2.4 billion (compared to six contracts for EUR 5.0 billion in 2023). These transactions, one in Africa, one in America, one in

		Europe and two in Asia, led to the conclusion of EUR 4.1 billion in export contracts involving six different exporters, including one that benefited from the Sfil system for the first time. Two of the transactions refinanced by Sfil in 2024 related to the infrastructure and transport equipment sector. They thus contributed directly to SDGs no. 7 "Ensure access to affordable, reliable, sustainable and modern energy services for all" and no. 9 "Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation". In 2024, the other transactions were carried out in the defense and cruise sectors. In addition, during the TXF forum in June 2024, Sfil received the Deal of the year Central Asia 2023 award for the financing of locomotives for freight and passenger transport in Kazakhstan. The passenger locomotives financed as part of this transaction emit 89% less gCO₂e per passenger-km compared to cars. As announced in December 2023 when announcing its 2030 targets to reduce the financed emissions of its portfolios, Sfil supports the efforts of its clients in favor of the energy and environmental transition in the countries of destination by an even stronger mobilization of thematic loans over the 2024-2030 period (see 2.6.3 "Environmental information" for more details on the decarbonization of portfolios). Bond markets were marked in 2024 by the beginning of a cycle of a looser monetary policy of the main central banks (Federal Reserve and ECB), leading each of them to reduce their key rates by 100 basis points cumulatively over the year. This context, buoyant for the bond issuance activity in the sovereign, supranational and agency issuers and covered bond segments, was reflected during the first half-year by strong global demand from investors across a wide range of maturities and a movement in spread performance. The announcement of early general elections in France in June 2024 resulted in widening the OAT-Bund spread and French credit spreads in general, which continued during the second half of the year. This market environment, the result of the elections in the United States and the degradation in the European geopolitical, economic and financial outlook from November onwards resulted in a slowdown in the bond issuance activity. In this context, in 2024, the Sfil Group issued a total of EUR 9 billion with average maturity of 7.7 years. It took the form of : • EUR 8.4 billion on the public primary market, of which EUR 0.7 billion via four transactions carried out on existing benchmark issues of Sfil and Caffil; • EUR 0.57 billion in private placements In addition, Sfil continued using its program for issuing debt securities at less than one year (NeuCP issuance program). As of December 31, 2024, outstanding debt securities of less than one year amounted to EUR 0.8 billion.
